

COVID-19 North Carolina Dashboard

On Oct. 20, NCDHHS added demographic data for hospitalizations to the NC COVID-19 Hospitalization Demographics Dashboard. Data is provided by age, gender, race and ethnicity for patients who were newly admitted to the hospital and confirmed or suspected to be positive for COVID-19 at the time of admission. The data provides further insight into the different demographic groups that are being hospitalized due to COVID-19.

Knowing when to dial up or down measures that slow the spread of the virus depends on North Carolina's testing, tracing and trends. This dashboard provides an overview on the metrics and capacities that the state is following.

Updated daily by approximately 12:00 p.m. Last updated October 20, 2020 at 12:28 p.m.
