

Coronavirus Cases

The North Dakota Department of Health dashboard displays the most recent preliminary data about cases, long term care, testing, and deaths. The investigations are ongoing and the information on the website may change due to newly acquired information.

Updated around 11:00 AM daily

Last updated: 5/01/2020 at 11:00 AM

Positive Cases: Number of individuals who test positive for COVID-19 from state and private labs. **Negative Cases**: Number of individuals who test negative for COVID-19 from state and private labs.

Total Tested: Number of people tested for COVID-19 infection at state and private labs. **Recovered**: Number of cases who tested positive and have since been released from isolation and are no longer contagious.

Currently Hospitalized: Number of individuals currently hospitalized. These numbers are updated as they're reported to us through the Health Information Network and hospital reporting. There may be delays in reporting.

Total Hospitalized: Total number of positive cases who are currently or were hospitalized, including individuals who have passed away.

Deaths: Number of individuals who died from any cause while infected with COVID-19.
