Deaths

Positive Cases: Number of individuals who test positive for COVID-19 from state and private labs.

Negative Cases: Number of individuals who test negative for COVID-19 from state and private labs.

Total Tested: Number of people tested for COVID-19 infection at state and private labs.

Recovered: Number of cases who tested positive and have since been released from isolation and are no longer contagious.

Currently Hospitalized: Number of individuals currently hospitalized. These numbers are updated as they're reported to us through the Health Information Network and hospital reporting. There may be delays in reporting.

Total Hospitalized: Total number of positive cases who are currently or were hospitalized, including individuals who have passed away.

Deaths: Number of individuals who died from any cause while infected with COVID-19.
