Coronavirus Cases

WELCOME to the refreshed COVID-19 dashboard. In this revised format, you'll find new county-level breakdowns, as well as additional statewide data. The dashboard is best viewed on a computer, but turning your mobile device to landscape will improve your experience. We welcome your feedback!

Share Your Feedback

The North Dakota Department of Health dashboard is updated daily by 11 am and includes cases reported through the previous day. The investigations are ongoing and information on the website is likely to change as cases are investigated. The information on the dashboard is the most up to date and may be different than previous news releases.

Serology Testing

Reported serology tests are completed in a laboratory and do not include point of care serology tests. Individuals who complete an antibody and a PCR test maybe be counted in totals for both.

Detected	Not Detected	Total
308	7910	8218

Deaths

Cause
Deaths Due to COVID-19   *Official number of individuals who died from COVID-19 as stated on the official death record. There will be a delay - by*
Deaths Where COVID-19 is Not the Primary Cause   *Deaths that list something other than COVID-19 as the official cause of death.*
Pending Death Records   *The number of deaths where an official death record has not been filed. Per state law, this can take up to 10 days from*
Total number of individuals who tested positive and died from any cause while infected with COVID-19.
Deaths of Individuals Presumed Positive   Deaths of individuals where COVID-19 was listed as the cause of death on the official death record, but there wa
