M

DoD* indicate the delta († 1) or rate of change (%) over the past 24 hours only. **Data shown are preliminary and subject to change as additional information is obtained. Race/Ethnicity containing missing data is bucketed into the unknown category. *Recovered: currently not hospitalized or deceased and 14 days after onset/report. Recoveries calculated beginning on 4/6/2020. Trend Line*** is a 7 day rolling average of the number of the confirmed cases by date of symptom onset or positive test result for asymptomatic cases. A 7 day lag has been applied to the trend line based on information collected to-date for the week

of 5/3 and 5/9 where within 7 days of onset date 90% of the cases had been reported.
