Coronavirus Disease 2019 (COVID-19)

Coronavirus Disease 2019 (COVID-19) is a virus strain that has only spread in people since December 2019.

For the latest information on Rhode Island specific COVID-19 numbers, [see RIDOH's COVID-19 Disease Data webpage](#).

Someone's risk for COVID-19 is closely tied to their recent travel history, and the travel histories of their immediate contacts — specifically, travel to [areas with community transmission](#) of COVID-19 or close contact with a person confirmed to have COVID-19. Remember that interaction with someone who had contact with someone who has confirmed COVID-19 does not pose a risk if that contact is not sick. One of the most important messages for us to remember is that someone's nationality alone is *not* a risk factor for COVID-19.

What Rhode Islanders should know

General guidance and information

- If you have traveled anywhere internationally in the last 14 days, self-quarantine for 14 days. That means do not go to work or school and stay at home.
- Avoid all crowded places, large events, and mass gatherings. However, people should continue doing essential

errands (such as going to the grocery store).

- Through March 30th, there will be no on-site food consumption for restaurants, bars, coffee shops, or other food establishments in Rhode Island. (Establishments with a food license can continue to conduct pick-up, drive-thru and delivery only.)
- Whenever possible, avoid close personal contact with people in public. When greeting people avoid handshakes and hugs.

Medical and Quarantine Information

- To prevent infection with COVID-19, the CDC recommends **frequent handwashing with soap and warm water; coughing and sneezing into your elbow or a tissue; avoid touching mouth, nose, and eyes; and if you are sick, stay at home.** [MORE](#)
- There are many respiratory illnesses circulating in Rhode Island, such as the flu and the common cold. Having respiratory symptoms does not mean that you have COVID-19. People are at higher risk for COVID-19 if they have symptoms of COVID-19 (cough, fever, shortness of breath) AND if they were a contact of a confirmed positive case of COVID-19 (or have traveled to [country with community transmission](#)).
- Someone is considered a contact if they have had direct, face-to-face contact with a person with COVID-19. Testing can only be done on individuals who have symptoms that are consistent with COVID-19 and who have had contact with a confirmed case of COVID-19 or travel history to a [country with ongoing community](#) spread of COVID-19. Testing individuals with no symptoms or history of travel is not recommended by CDC.
- If you are subject to [self-quarantine](#) that means:
 - Stay home.
 - Do not go to work, school, or public areas.
 - Do not use public transportation.
 - Separate yourself from other people in your home. As much as possible, you should stay in a different room from other people in your home. Also, you should use a separate bathroom, if available.
- **People who think they have COVID-19 should call their healthcare provider. These people should NOT go directly to a healthcare facility without calling a healthcare provider (unless they are experiencing a medical emergency).**

Health Insurance Information

- A special enrollment period for Rhode Islanders without health insurance is now available through April 15th, 2020 to qualified individuals who are uninsured. Visit [HealthSourceRI.com](https://www.healthsourceri.com) to enroll, or call customer support or use our web chat function between 8:00 a.m. and 6:00 p.m. Monday – Friday at [☎ 1-855-840-4774](tel:1-855-840-4774). For anyone who is concerned that they need to be tested for coronavirus -- or anyone who is seeking care because of coronavirus exposure -- coverage will start retroactively.

School and Child Care Information

- School vacation week in Rhode Island is being moved from April to the week of March 16th- 20th. During this time, teachers and other school staff are urged to remain local. The change in school vacation week is to limit spread of COVID-19 while allowing schools and districts to work with the Rhode Island Department of Education on their distance learning plans. It will also allow schools and districts to prepare to make meals available to at-risk students where possible, in the event we need to move to distance learning. Schools should also use next week to clean and disinfect all surfaces in their buildings. A decision will be made at the end of next week about what to do the following week.
- Due to the closure of schools, free "Grab and Go" meals are available (March 16th - March 20th) for children throughout Rhode Island. [MORE](#)
- Child care centers advised to close effective Tuesday, March 17th. [MORE](#) [DHS WEBSITE](#)

Healthcare Facilities, Nursing Homes, Assisted Living

- Nursing home administrators have been directed to not allow any visitors (unless they are essential to the care of a resident). Additionally, nursing home administrators have been directed to continue actively screening staff, vendors, and all other people who enter facilities for illness and COVID-19 risks (for example, travel history or exposure to someone under investigation for COVID-19).
- Check [hospital websites](#) for visitation restrictions.

Employment Related Issues

- The Rhode Island Department of Labor and Training has set up a COVID-19 Assistance Line and email address ([☎ 401-462-2020](tel:401-462-2020); [✉ dlt.covid19@dlt.ri.gov](mailto:dlt.covid19@dlt.ri.gov)). They are intended to provide support to people regarding COVID-19 and employment issues. The phone line is staffed Monday to Friday during business hours. [FACTSHEET](#) [MORE](#)

Commerce/Business Information

- **Information on SBA Disaster Loan Assistance** - The U.S. Small Business Administration announced it is offering low-interest federal disaster loans for working capital to Rhode Island small businesses suffering substantial economic injury as a result of the Coronavirus (COVID-19). [MORE](#)
- **Microsoft Free Offerings** - For businesses, municipalities, K-12 and other entities, Microsoft is providing six months of Office 365 tools for free to enable remote collaboration, file sharing and video conferencing. They're also offering free assistance to set up these tools. [MORE](#)

People with general questions about COVID-19 can call [☎ 401-222-8022](tel:401-222-8022).
