(coc

Novel Coronavirus

Infectious agent: severe acute respiratory syndrome coronavirus2 (SARS-CoV-2)

Situation Summary: In December 2019, Chinese health authorities identified an outbreak of pneumonia associated with a novel, or new, coronavirus which has resulted in thousands of confirmed cases in China. Additional cases have been identified in a growing number of other international locations, including the United States. There are ongoing investigations to learn more. Click here to access CDC's COVID-19 webpage for the most up to date information: https://www.cdc.gov/coronavirus/2019-nCoV/index.html.

Testing Location	Total COVID-19 Tests Completed	Number Negative	Number Positive
TN State Public Health Laboratory	613	563	50
All other commercial and private laboratories			178
Total positives in TN			228

^{**} Laboratory reports of positive cases are reported to metro and local health departments as soon as results are available. State numbers are updated at 2pm daily and there may be a lag in the reporting of cumulative numbers at the state level.
