Novel Coronavirus

COVID-19 Assessment Sites

COVID-19 Symptom Checker

Infectious agent: *severe acute respiratory syndrome coronavirus2 (SARS-CoV-2)*

Situation Summary: In December 2019, Chinese health authorities identified an outbreak of pneumonia associated with a novel, or new, coronavirus which has resulted in thousands of confirmed cases in China. Additional cases have been identified in a growing number of other international locations, including the United States. There are ongoing investigations to learn more. Click here to access CDC's COVID-19 webpage for the most up to date information: <https://www.cdc.gov/coronavirus/2019-nCoV/index.html>.
