

CoronaVirus (COVID-19) Updates

The Utah Coronavirus Task Force is actively monitoring the spread of COVID-19 on a state, national, and global level.

are al
harm

The Utah Department of Health is working with local health departments, healthcare providers, and other public health partners throughout the state to monitor illness associated with this new coronavirus and to prevent further spread.

Even
the g
appre

The department has activated its Incident Command System in order to ensure effective communication and coordination with all involved agencies.

While the origin of this particular outbreak can be traced back to China, it would be grossly inappropriate, not to mention medically ineffective, to ostracize anyone from our communities or exclude anyone from our places of public gathering based on their race, nationality, or ethnicity.

Many rumors related to COVID-19 circulating on social media are false or contain misinformation. People should be skeptical of rumors they hear on social media that aren't being reported by reputable health organizations or mainstream media outlets and should not share or repost items unless they

What's Happening: Utah

The Church of Jesus Christ of Latter-day Saints has announced they will limit attendance at the General Conference in April. Although sessions will still be conducted in Conference Center, the public will not be allowed to attend. Instead, the sessions will be distributed to church members through technology.

Utah's disease surveillance system is working as designed, as public health officials and health care providers are coordinating to identify and investigate potential cases. Only cases diagnosed in Utah will be counted as Utah cases.

What's Happening: U.S.

Cases of COVID-19 infection in travelers have been [detected in the U.S.](#)

Currently, the Centers for Disease Control & Prevention is responding to an outbreak of respiratory illness caused by a novel (new) coronavirus. The outbreak first started in Wuhan, China, but cases have been identified in a growing number of other [locations internationally](#), including the United States. In addition to CDC, many [public health laboratories](#) are now testing for the virus that causes COVID-19.

To limit the spread of the virus, many cities have placed restrictions on large gatherings. Many major events have also been cancelled, including the Coachella Music Festival and South By Southwest.

What's Happening: World

The World Health Organization has officially designated the COVID-19 outbreak as a [global pandemic](#).

The CDC has [suspended travel](#) from China and Iran by foreign nationals, and recommends avoiding all non-essential travel to these countries. The agency also recommends avoiding non-essential travel to Italy and South Korea, and that older adults or those with underlying health conditions avoid Japan.

The Italian government has placed the entire country on [lockdown](#), allowing only essential travel and encouraging everyone to stay home. Other European countries have placed restrictions on travel and

mass gatherings, as well.

Number of confirmed* COVID-19 cases in Utah

5

**Cases identified by laboratories in Utah must be confirmed by the Centers for Disease Control & Prevention*
