2019 NOVEL CORONAVIRUS

CURRENT STATUS IN VERMONT

On March 11, 2020, health officials announced a second case of novel coronavirus COVID-19 in Vermont. This Chittenden County case is considered presumptive positive, pending confirmation by the Centers for Disease Control and Prevention. Read more. The first case, announced on March 7, is in Bennington County.

NEW: As of March 12, 2020, travelers returning from most of Europe ☑, China, Iran and South Korea should stay home and monitor their health for 14 days. Call Health Department epidemiology and infectious disease staff at 802-863-7240 for monitoring information. If you have symptoms of fever, cough or difficulty breathing call your health care provider.

WHEN TO CALL

• If you have questions about COVID-10. Dial 2-1-1

IN THIS SECTION

Hepatitis A and B

Vermont is experiencing a statewide increase of hepatitis A, and Health Commissioner Mark Levine, MD declared an outbreak in mid-January 2020. The Health Department has been offering free hepatitis A vaccine clinics in places that serve high-risk individuals, such as shelters, syringe services programs, and meal sites.
