**Everyone, even people who are young and healthy, must stay home to slow the spread of COVID-19. You should:**

- Stay at home and avoid all non-essential contact with others.
- Limit trips for groceries, gas and other essentials.
- If you must go out, stay at least 6 feet away from others at all times.

## Stay Home—Stay Healthy

On March 23, Gov. Jay Inslee issued a [Stay Home — Stay Healthy](#) order which will be effective for a minimum of two weeks. The order requires every Washingtonian to stay at home, except for people:

- Pursuing an essential activity, like shopping for groceries or going to a medical appointment. [What's opened and closed](#)
- Getting takeout food. (Food deliveries also are permitted).
- Going to work at an [essential business](#).
- Going outside for walks and exercise, as long as they keep 6 feet apart.
- [What does it mean to stay home?](#)

### What to do if you are ill

If you are ill with fever and a cough or shortness of breath, stay home. If you are unsure of how to care for yourself or are concerned about your condition, call your health care provider for advice. If you feel you need to visit your doctor, call them first. Keep yourself separated from other people and animals in your home. Cover your coughs and sneezes and wash your hands often.

### Questions on complying with the Stay Home, Stay Healthy Order?

The public has been highly accepting of and cooperative with Public Health's actions that are intended to protect the community's health and well-being in King County. While the Governor's Stay at Home Order is enforceable by law, King County will not be actively searching for violations. Our focus is on helping people understand the importance of social distancing, rather than citations.

# WE'RE PROTECTING OUR FAMILIES FROM COVID-19

## In response to Public Health direction, we:

- ✓ Screen caregivers and children daily for fever, cough, and shortness of breath.

- ✓ Ensure sick caregivers and children stay home.

- ✓ Ensure that children and caregivers frequently wash their hands.

- ✓ Clean and sanitize surfaces frequently.

Please help in protecting our community:
