Current Event Closure Recommendation

Washington State Governor Jay Inslee announced on Wednesday March 11, 2020 that events with more than 250 people are prohibited. Kittitas County Public Health Department (KCPHD) is now recommending that Kittitas County residents voluntarily follow these measures.

KCPHD is recommending that events over 250 people be cancelled. Governor Inslee’s order and KCPHD’s recommendation applies to social gatherings, faith-based gatherings, recreational and sporting events, concerts, fundraisers, and additional similar events. Currently, COVID-19 has been confirmed in 13 counties in Washington, including three eastern Washington counties: Grant, Kittitas, and Yakima. Other counties in eastern Washington, including Chelan, Douglas, and Okanogan, are also urging their residents to follow the Governor’s order.

HOW TO FIGHT OUTBREAKS WITHOUT MEDICINE

Press

INCREASE HANDWASHING AND USE OF ALCOHOL-BASED SANITIZER

RESPIRATORY HYGIENE AND COUGH ETTIQUETTE

[Governor Inslee Expands Prohibition and School Closures](#) 03/13/2020

At a press conference today, Governor Jay Inslee expanding the state prohibition of gatherings of more than 250, closed all public and private schools within the state, and expanded the directives of nursing/assisted living facilities.

[Kittitas County Resident with Definitive Exposure to COVID-19](#) 03/13/2020

A King County resident who was tested in Kittitas County has tested positive with COVID-19. That King County resident had close contact with a 20 year old Kittitas County resident. The Kittitas County resident had definitive exposure to a person with COVID-19 and is in voluntary self-quarantine.

[Updated Recommendations for Kittitas County Residents](#) 03/12/2020

Washington State Governor Jay Inslee announced on Wednesday March 11, 2020 that events with more than 250 people are prohibited. Kittitas County Public Health Department (KCPHD) is now recommending that Kittitas County residents voluntarily follow these measures.

[Kittitas County Board of Commissioners Address Outbreak Response](#) 03/11/2020

The Kittitas County Board of Commissioners (BOCC) has been working closely with Human Resources and other county offices to ensure that Kittitas County as an employer is ready to respond to the community spread of COVID-19. Continuity of Operations is essential to providing governmental services to our community.

[Kittitas County now has Three Positive COVID-19 Patients](#) 03/11/2020

The Kittitas County Public Health Department (KCPHD) was notified of a third positive test result for COVID-19 in our county. The third patient is male and 56 years old. At this time, the third positive test result appears to be unrelated to the two previous cases.

[Kittitas County now has Two Positive COVID-19 Patients](#) 03/11/2020

This morning, the Kittitas County Public Health Department (KCPHD) was notified of an additional positive test result for COVID-19 in our county. The patient is a family member of the first positive case. Currently, the 67 year old female patient who is positive for COVID-19 is being evaluated for hospitalization. The second patient who is positive is stable and does not require hospitalization at this time. "We are coordinating with our healthcare responders and the family to ensure everyone's health and safety," states Health Officer Dr. Mark Larson.

[Positive COVID-19 Contact Investigation is Underway](#) 3 of 3 03/07/2020

New information to share with the public is:

- Three people employed at a local business were notified of close contact with patient.
- Symptomatic close contacts who have been tested will be required to stay home in isolation until test results are returned.
- Anyone who gets tested for COVID-19 will be required to isolate until results are returned.
- Frequently asked questions about symptoms and testing are available at www.doh.wa.gov. Informational sheets include the following:
 - o What to do if you have confirmed or suspected coronavirus disease.
 - o What to do if you were potentially exposed to someone with confirmed COVID-19.
 - o What to do if you have symptoms of COVID-19 and have not been around anyone who has been diagnosed with COVID-19.
- As of today, KCPHD is not requiring or recommending any event cancellations or closures. However, organizations and individuals planning major events should be considering alternative plans.

[Positive COVID-19 Contact Investigation is Underway 2 of 2](#) 03/07/2020

As the Kittitas County Public Health Department (KCPHD) conducts the current COVID-19 disease investigation, we want to inform the public that we most likely have community spread. Community spread, according to the Centers for Disease Control and Prevention (CDC) means people have been infected with the virus in our area, including some who are not sure how or where they became infected.

[Positive COVID-19 Contact Investigation is Underway 1 of 1](#) 03/07/2020

The Kittitas County Public Health Department is currently working with the individual who has tested positive for COVID-19 to gather information and begin contacting potential close contacts. We will continue to update the public as information becomes available.

[KCPHD Notified of Positive COVID-19 Patient in Kittitas County](#) 03/07/2020

The Kittitas County Public Health Department (KCPHD) has been notified of a positive COVID-19 test result. Patient is stable and in isolation.

[No Positive COVID-19 Cases in Kittitas County, but Increase in Response Requires County Declaration of Emergency](#) 03/06/2020

Kittitas County has declared a state of emergency in regard to COVID-19. The declaration comes in response to increased testing and contact investigations within our county. This is all preemptive and provides for additional resources to Kittitas County.

[COVID-19 Weekly Update 2 of 2](#) 03/06/2020

The Kittitas County Public Health Department is always working to prevent or limit the spread of disease. This weekly update will address the rapid changes that are occurring.

[Third COVID-19 Test is Negative with More Tests Pending](#) 03/04/2020

The Kittitas County Public Health Department (KCPHD) was notified that a third test results for suspected COVID-19 in Kittitas County is negative. However, Kittitas County has also added an additional person under investigation. To date, we have 3 test results that were negative and two people under investigation for a total of five individuals.

[Second COVID-19 Test in Kittitas County is Negative with More Tests Pending](#) 03/03/2020

The Kittitas County Public Health Department (KCPHD) was notified that the test results for the second suspected case of COVID-19 in Kittitas County came back negative. Additional information is pending for two people under investigation for COVID-19 in Kittitas County. KCPHD will provide notification as information regarding the two new cases becomes available.

[COVID-19 Monitoring Continues and the Risk Remains Low](#) 03/02/2020

The Kittitas County Public Health Department (KCPHD) is testing a Kittitas County resident, currently hospitalized in Western Washington, for COVID-19. The patient is in critical, but stable condition. Testing was sent as of March 2, 2020 to the Washington State Department of Health's lab. When test results become available, KCPHD will issue results immediately.

[COVID-19 Weekly Update 1 of 1](#) 02/28/2020

The Kittitas County Public Health Department is always working to prevent or limit the spread of disease. This work is familiar to us, but we realize that the general public does not deal with disease prevention every day, so below is some information to help.

[Test Results Negative for 2019 Novel Coronavirus in Kittitas County.](#) 02/07/2020

The Kittitas County Public Health Department (KCPHD) was notified that the test results for the suspected case of novel coronavirus in Kittitas County came back negative. The patient is stable and is no longer under isolation.

KCPHD and Central Washington University (CWU) will continue to work closely together to reach out to students, families, and

personnel that were involved.

Patient Being Tested for Novel Coronavirus in Kittitas County 01/30/2020

The Kittitas County Public Health Department will send a test for Novel Corona Virus to the Washington State Department of Health (DOH) Laboratory for a suspected case in Kittitas County. The patient is currently a student at Central Washington University (CWU) and is voluntarily in isolation.
