NOVEL CORONAVIRUS 2019

This is an evolving situation. This page will be updated as more information is available.

The Snohomish Health District, Washington State Department of Health, and Centers for Disease Control and Prevention are closely monitoring the coronavirus disease (COVID-19).

The Snohomish Health District is tracking COVID-19 carefully and working with the community to reduce the impacts of this virus. New temporary rules have been put into place focused on social distancing - a key strategy for reducing the spread of illness.

The most important thing you can do is remain calm, prepared, and informed. It also is important to take standard illness prevention tips. The same steps you take to reduce the spread of flu or other respiratory illnesses are key tools for reducing the spread of coronavirus.

The Community Foundation of Snohomish County has launched a charitable fund, in partnership with the Snohomish Health District, Snohomish County, and United Way of Snohomish County, to help ease the economic impacts of COVID-19. You can learn more or donate at www.cf-sc.org.

WHO TO CALL

If you have symptoms of illness, contact your medical provider. **Call ahead** before you go into a clinic or other health care facility.

If you have questions about medical care for yourself, a family member or someone else in your household, contact your medical provider directly.
