Health Care System Capacity		
Sufficient healthcare capacity without surge	<80% over 7 days	76% occupancy (Over 14 days <80%)
Public Health System Capacity		
Sufficient contact tracing capacity for all new cases and their close contacts	Contact tracing attempt of new cases within 1 day and their close contacts within 2 days	Currently contact tracing priority populations and their close contacts

Gated Criteria: community spread

Sustained decrease in community spread

The countdown towards reopening has paused today, after detecting a significant increase in cases compared to the previous low. This may be due to a lower number of cases typically reported over the weekend by laboratories. These weekend effects can increase after symptom onset dates are added during contact tracing interviews. Until then, under an abundance of caution, this date (shown in yellow) is under review
