

SITUATION REPORT NO. 9

Disease Outbreak: COVID-19

Response start date: 30th January, 2020

Date of report: 27th March, 2020

Prepared by: MOH/ZNPPI/WHO

Country: Zambia

Correspondence: ims.covid@znpfi.co.zm

1. CURRENT SITUATION UPDATE

➤ **Country Highlights:** As of 18hrs on 27th March 2020:

- There were **six (6) new confirmed cases** (5 in Lusaka and 1 on the Copperbelt) recorded in the past 24 hours. The total number of confirmed cases is **twenty-two (22)**. **There have been zero (0) deaths recorded** (Refer to Annex 1)
- **Levy Mwanawasa Hospital:** There are currently **23** patients admitted at Levy Mwanawasa Hospital in Lusaka: 20 confirmed positive and 3 suspected cases (with results pending)
- **Masaiti District Hospital (Copperbelt):** There are currently two (2) confirmed positive cases

Zambia Current Numbers

👤 **22 Confirmed (6 new)**

👤 **0 Deaths (0 new)**

👤 **0 Recoveries (0 new)**

Global Numbers

(Source: WHO)

👤 **509,164 confirmed (46,484 new)**

👤 **23,335 deaths (2,501 new)**

**New: in the last 24hrs*

Table 1: COVID-19 Cumulative surveillance and case management report as of 27th March 2020

Parameter	Number
Total Number of Samples Received	350
Total Number of Results Processed	269
Total Number of Confirmed COVID-19 Positive Cases	22
Number of high risk persons under observation	2,985
Number of high risk persons that have completed 14 days observation	675
Number of alerts notified & verified as non-cases	144

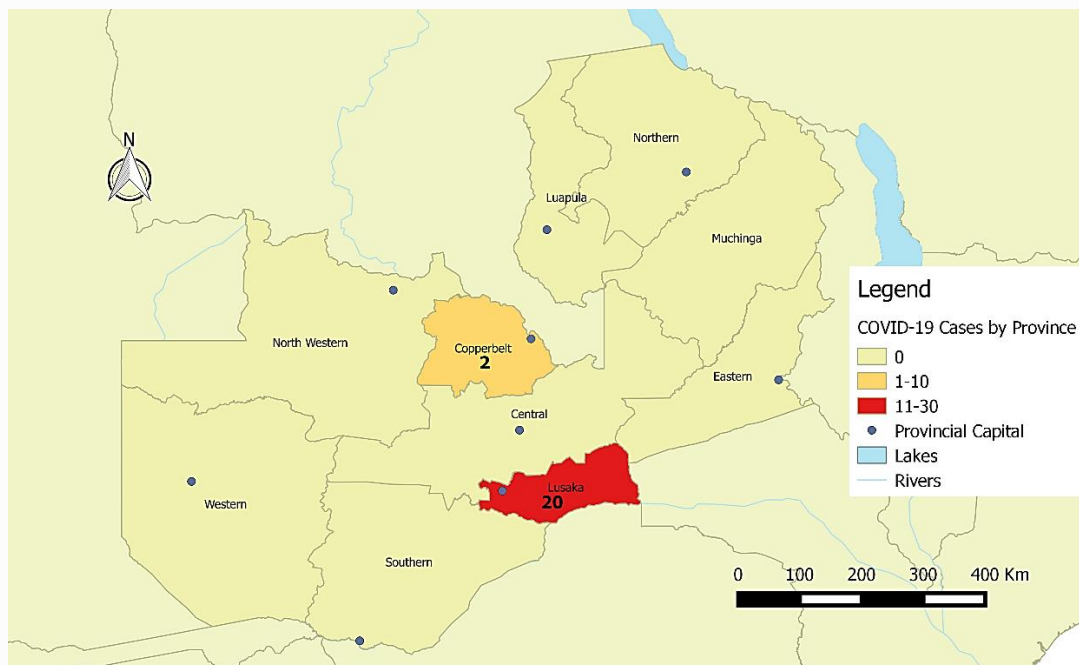

Figure 1: Map of Zambia showing confirmed COVID-19 cases by province as of 27th March 2020

2. ACTIONS TO DATE

2.1 CO-ORDINATION

- **Policy Level:** Government measures and interventions to control the spread of COVID-19 came into effect at midnight on Thursday 26th March, 2020. The measures include continued screening of travellers into Zambia (symptomatic travellers will be isolated at a health facility; asymptomatic travellers are required to undergo quarantine at their own cost and monitoring for at least 14 days); redirection of all international flights to land and depart from KKIA only; suspension of non-essential travel to countries with confirmed COVID-19 cases; restriction of public gatherings to no more than 50 people; restaurants to operate only on take away and delivery basis; and closure of all bars, nightclubs, cinemas, gyms and casinos.
- **Technical level:** The IMS continues to meet on Tuesdays and Thursdays. (Refer to Annex 2 for the IMS structure)

2.2 SURVEILLANCE

- **POE, health facility, sentinel site and Event Based Surveillance:** surveillance data is being collected from all these sites and remains heightened country wide.
 - The number of cases reported country-wide is summarised in the table 2 below
 - Standard case definitions are being used (Refer to Annex 3).

Reporting Province	New Cases	Total Confirmed cases	New Deaths	Total Deaths	Transmission classification	Days since last confirmed case discharged
Lusaka	5	20	0	0	Imported/Local	0
Copperbelt	1	2	0	0	Imported	0
Central	0	0	0	0	N/A	0
Southern	0	0	0	0	N/A	0
Eastern	0	0	0	0	N/A	0
Western	0	0	0	0	N/A	0
Northern	0	0	0	0	N/A	0
N/Western	0	0	0	0	N/A	0
Luapula	0	0	0	0	N/A	0
Muchinga	0	0	0	0	N/A	0
Total	6	22	0	0		

➤ **Laboratory:**

- Total samples received to date is 350, 269 results processed with 22 confirmed positive. Summary of tests conducted to date is available in Annex 1

➤ **Case Management:** Refer to Annex 1 for detailed summary

- **Isolation facilities** have been set up in all high risk districts across the ten provinces; detailed list available at Annex 4 (Note: list is currently under revision following country-wide assessment)
- **Levy Mwanawasa Hospital:** 23 patients currently admitted (20 confirmed positive; 3 suspected (results pending). Screening structures have been set up at the facility
- **Tubalange Hospital:** there are currently no cases admitted at the facility
- **University Teaching Hospital:** Screening structures have been set up here as well. There are currently no patients admitted at the facility
- **Masaiti District Hospital:** There are currently 2 confirmed positive cases admitted at the facility

3. GAPS AND CHALLENGES

- **Health promotion:** incorrect/inconsistent messages being shared by some media houses
- **Logistics:** logistical supplies pledged by partners yet to be delivered; currently on GRZ procured items and those donated by the Jack Ma Foundation are in use.
- **Surveillance:** incomplete/incorrect contact information provided on surveillance forms

4. PRIORITY ACTIONS AND RECOMMENDATIONS

- **Case management:** operational testing of all ventilators; provision of additional PPE; identification of additional space; deployment of additional EHT and auxiliary staff
- **Health promotion:** provide clearance for standardised messages that can be shared by partners; develop partner directory and identify core teams to provide technical support for different media and platforms
- **Logistics:** continued repositioning of supplies in all provinces as part of response efforts

5. CONCLUSION

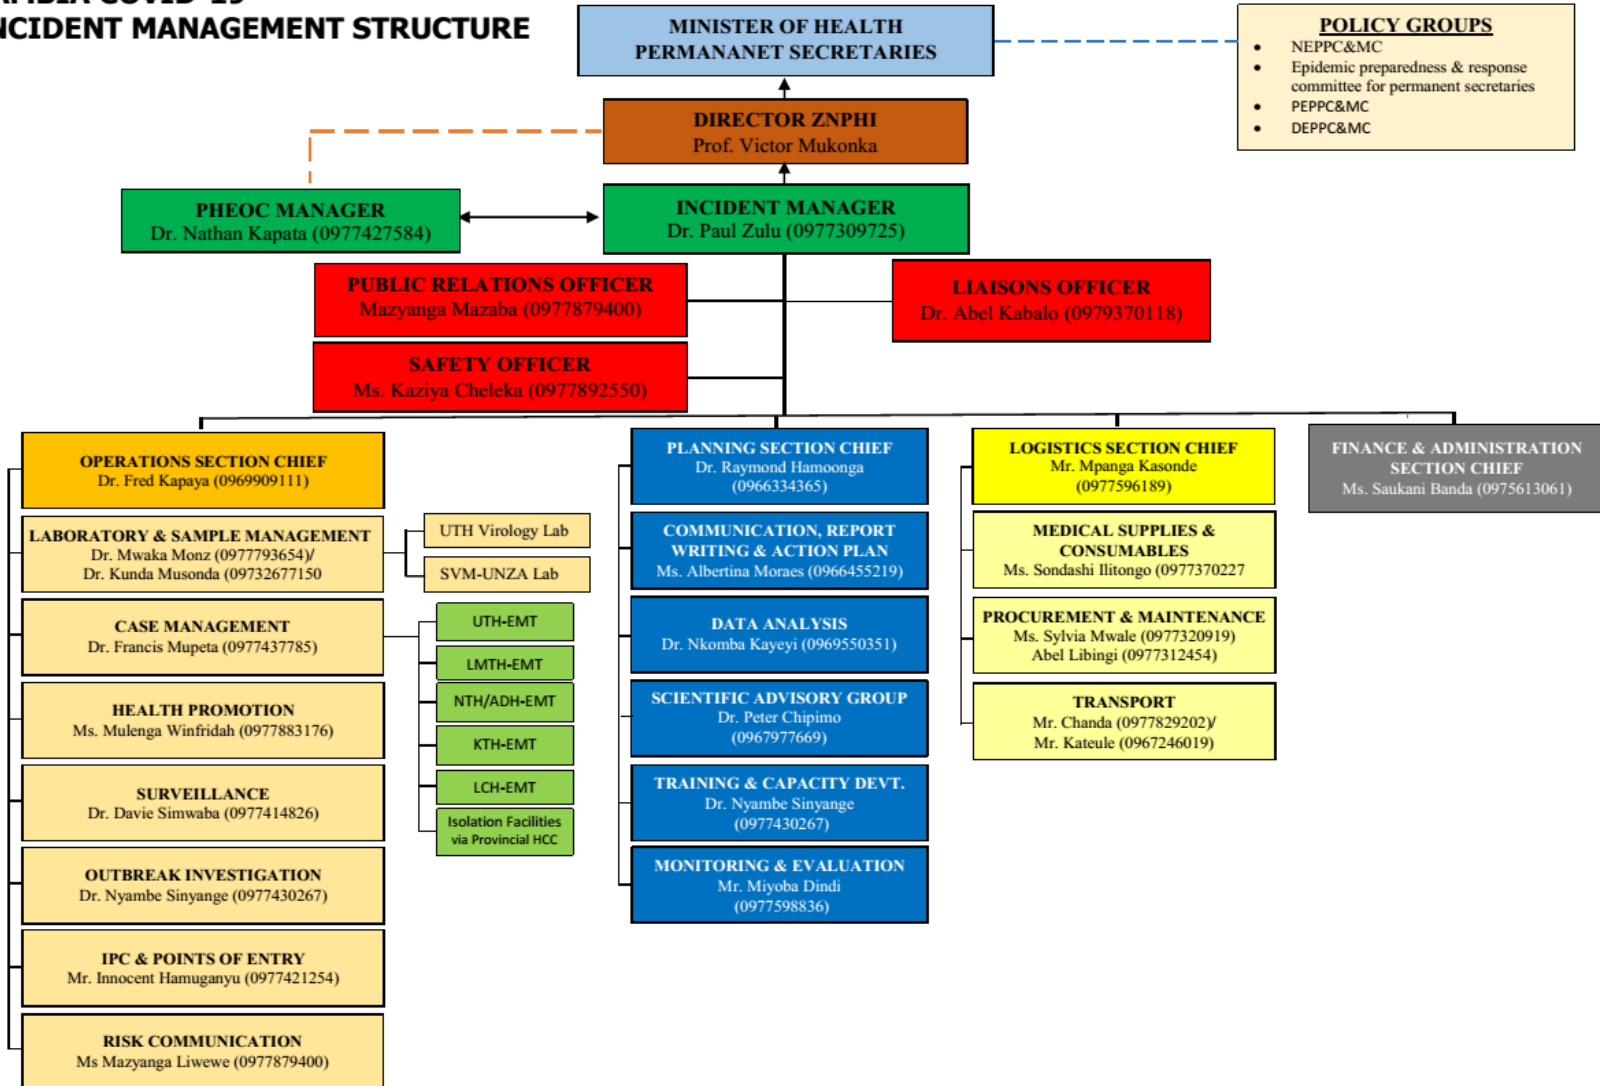

Zambia recorded six additional confirmed cases of COVID-19 bringing the total number to 22. Cases remain confined to Lusaka and Copperbelt provinces. Contact tracing and other surveillance measures to identify all possible cases are being continually strengthened.

ANNEX 1: EPIDEMIOLOGICAL DATA AS OF 18:00HRS ON 27TH MARCH 2020

Total Cases	Daily Total			Cumulative since outbreak declared		
Suspected cases	2			74		
Confirmed cases	6			22

ANNEX 2: NATIONAL LEVEL INCIDENT MANAGEMENT SYSTEM FOR THE COVID-19 PREPAREDNESS RESPONSE

ZAMBIA COVID-19 INCIDENT MANAGEMENT STRUCTURE

ANNEX 3: CORONA VIRUS DISEASE 2019 (COVID-19) CASE DEFINITIONS

Case Definitions

1. Suspect case:

A. Patient with acute respiratory infection (fever and at least one sign/symptom of respiratory disease e.g. cough, shortness of breath), AND with no other aetiology that fully explains the clinical presentation AND a history of travel to or residence in a country/area or territory reporting local transmission of COVID-19 during the 14 days prior to symptom onset,

OR

B. Patient with any acute respiratory illness AND having been in contact with a confirmed or probable COVID-19 case in the last 14 days prior to symptom onset,

OR

C. Patient with severe acute respiratory infection (fever and at least one sign/symptom of respiratory disease e.g. cough, shortness of breath), AND requiring hospitalization AND with no other aetiology that fully explains the clinical presentation

2. Probable case: A suspect case for whom testing for COVID-19 is inconclusive or is tested positive using a pan-coronavirus assay and without laboratory evidence of other respiratory pathogens.

3. Confirmed case: A person with laboratory confirmation of COVID-19 infection, irrespective of clinical signs and symptoms.

4. Person Under Investigation: a suspected case, irrespective of admission status, with either history of travel to an area with local transmission or worked in/attended a health care facility treating COVID-19 infections or admission to a facility for severe pneumonia of unknown aetiology

ANNEX 4: LIST OF DESIGNATED ISOLATION FACILITIES FOR THE COVID-19 PREPAREDNESS RESPONSE

PROVINCE	DISTRICT	ISOLATION FACILITY
